

## 4G/LTE 2500-2700MHz Hight Gain 16dBi 120° Sector Antenna Part No:AC-D26V16-120

## 1. Introduction

The widest selection of sector antennas in the industry for point-to-multipoint base station applications.

These designs offer a lightweight and rugged design and are built for years of trouble free service.

Vertical or horizontal polarization models may be chosen.

Sector antennas helps wireless carriers to quickly increase capacity as well as deploy new spectrum

in zoning chall-enged locations. These rugged all weather antennas are

designed for years of reliable operation.
