

4G/LTE 698-790MHz 14dBi Yagi Antenna With 12 Elements

Port No:AC-D750Y14-12

1. Introduction

Yagi antennas are typically very directional and are used for point to point, or to extend the range of a point to multi-point system.

Our AC-D750Y14-12 antenna offers an extremely wide frequency range, high gain and Aluminum material.

Applications include 4G, 3G, LTE, PCS, DCS, AWS, IMT, WCDMA, and cellular.

This antenna has an excellent front to back ratio to block unwanted signals and provides outstanding corrosion resistance and longevity in the harshest environments.
